TO WHOM IT MAY CONCERN

PCM Middle East FZE is the Middle East head quarter of PCM, a group specialized in pumping solutions and listed on Paris stock exchange. PCM Middle East FZE collaborated for 4 years with BM Management, externalizing the accounting process for its two registered company in UAE and OMAN.

BM Management's initial scope was to manage the accounting, and report monthly in the format of the group as well as additional reported needed for December and June closing. BM has offered very solid performances across the years. All reports were made on time and offered additional information to what was initially required. The quality of accounting staff allows to offer controls over the main aspects of the PCM activity and relationship was always performed in a very transparent and professional manner.

I strongly recommend BM Management for any company active in the Middle East.
